

Emission sources of the nonlinear term over the N. Atlantic, year 2040
a partition of the 1850→2040 conditioning change that occurred — NOT a counterfactual perturbation

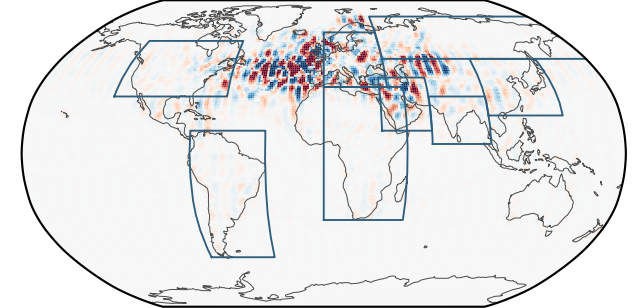

(a) what drives N over the N. Atlantic

CO2 — +0.0256 (+31% of N)

SUL — +0.0542 (+66% of N)

BC — +0.0030 (+4% of N)
